6TH EDITION

This will be the 6th edition
of this marquee event

700+

Estimated
participation

2 DAY EVENT

14th March Workshop
15th March Conference

COMMUNITY PARTNER OBJECTIVES

COLLABORATION

The program strives to collaborate with diverse communities interested in Python and related technologies. This collaboration involves joint events, workshops, webinars, and knowledge sharing initiatives, fostering a robust network of Python enthusiasts.

OUTREACH

By partnering with various communities, PyConf Hyderabad extends its reach and engages with a broader audience. This includes reaching out to communities in different cities, towns, and rural areas, ensuring that Python-related opportunities are accessible to individuals from various backgrounds.

DIVERSITY & INCLUSION

The Community Partner Program emphasizes diversity and inclusion. It actively seeks partnerships with communities representing diverse backgrounds, including women in tech, LGBTQ+ communities, underrepresented groups, and individuals from marginalized communities. The program aims to create an inclusive environment where everyone feels welcome and valued.

EXPECTATIONS AND PERKS

WHAT WE EXPECT

Introduce PyConf Hyderabad to your community by creating an event on your platform and share the event on your Social Media channels. Regularly post updates about the conference to your community members. Follow the conference's Code of Conduct at all times.

WHAT YOU GET

Your community in opening and closing address. Your community logo on the website. Access to community openspace to engage with attendees. We may provide one ticket based on the availability.

WHO MAY QUALIFY AS A COMMUNITY PARTNER

Open-Source Organizations: Projects that contribute to the tech community through the development of open-source libraries, frameworks, tools, or software.

Non-Profit Organizations: Non-profit entities dedicated to promoting technology, supporting developers.

Technology communities and user groups: Local or regional Python user groups, developer communities, or tech-focused organizations that engage and support tech enthusiasts.

WHO MAY NOT QUALIFY AS A COMMUNITY PARTNER

Unrelated or Unfitting Groups: These are entities that lack a distinct link or pertinence to the Python community, its growth, or its intended goals.

Disputed Bodies: Entities that advocate hate speech, prejudice, or participate in activities that are at odds with the principles of inclusivity, diversity, and respect that the PyConf Hyderabad community supports.

Commercial Entities: Businesses that operate for profit, which could influence or sway the primary educational and community-oriented objectives of the Python ecosystem.

WE LOOK FORWARD TO COLLABORATE WITH YOUR COMMUNITY

We encourage organizations interested in becoming a PyConf Hyderabad 2026 Community Partner to apply. Please note that the final decision on community partnerships rests with the PyConf Hyderabad organizing committee, and they reserve the right to accept or decline any partnership application based on their evaluation and alignment with the community's goals and values.

PRIVACY POLICY

We respect the privacy of our conference attendees. We will not share any personal information with third parties without the explicit permission of the individual. Attendees may choose to share their contact information with you at your booth. You can use this information to contact them about future events and to provide them with information about your products and services. We take the security of personal information very seriously. We use industry-standard security measures to protect participant information from unauthorized access, use, or disclosure.
